

**PANJAB UNIVERSITY, CHANDIGARH**

No. 461-350/R/DS

Date: 03-05-2018

Due to the onset of summer, it is expected that electricity consumption would be increased. Power load beyond authorized capacity may cause power tripping and fire accidents. In addition to this, electrical equipment may also be damaged due to frequent electrical fluctuations. Hence, it is required to ensure that there is no loose wiring, no wrong power connections, no unauthorized power loads, etc. in the University campus. Electrical equipment installed should also be of good quality, adhering to the prescribed standards.

In the light of above, you are requested to conduct visits at various locations of the University campus, like Teaching Departments, Hostels, Offices, etc. and to conduct proper safety checks. You are further requested to submit status report to the undersigned, periodically. You are further requested to submit a certificate to the effect that all wiring/electrical equipment of the University campus are in conformity with the safety standards laid down.
