

PANJAB UNIVERSITY, CHANDIGARH

No.: 297-450/R/DS

Date: 14.07.2022

Circular

In view of upcoming rainy season and in pursuance of Note No.1608/HC dated 11.07.2022 received in this office for necessary action in respect of Malaria & dengue larva, all the residents of P.U. Campus are required to undertake preventive measures to safeguard ourselves and the public at large from the risk of vector borne diseases, such as Malaria and Dengue.

In this regard, as a part of preventive strategies to stop Malaria/Dengue cases during the season, all concerned are requested to take preventive steps by checking all the mosquito-genic situations for prevention and control of vector borne diseases. The various Do's and Don'ts which should be followed are as under: -

1. Scrub dry and drain out the water from your coolers at weekly intervals.
2. Do not allow water to accumulate in the can, tins, tyres, containers, flower pots, refrigerator trays, AC trays & container for birds (bird feeding pots).
3. Do not allow water to collect in and around your house/shop/building/land/plot.
4. Do not throw junk articles and water holding containers on the roof top.
5. Cover your overhead tanks on the roof top.
